

BEST-FIT RECRUITMENT**USE CASE DIAGRAM****FIGURE 16. USE CASE DIAGRAM FOR BESTFIT APPLICATION****Diagram Explanation**

In the diagram, the Employee and the manager are the actors while there are several different user cases available. Login is a process that can be done by both – the manager and the employee. Further, the employee can request an absence, check holidays, view deadlines as well as the upcoming training. They can also view their Absence history and check-in and check-out. The manager can perform several processes such as Viewing the employee's absence history, approving or rejecting their absence requests, viewing the attendance details, contact details as well the reports. They can also view the employees' check-in and check-out time.

ER DIAGRAM

**FIGURE 15. ER DIAGRAM FOR BESTFIT APPLICATION****Diagram Explanation**

The ER diagram for the Bestfit application is made. According to the diagram, the Employee as well as the manager can login to the application. Email and Passwords are required for logging in to the application. Further, The Employee entity includes the email, name and designation and the ID as the attributes. The Employee ID acts as the Primary key. The Employee is connected to the Absence entity through the relation “Requests”. The Absence entity includes the ID, Reason, Dates, Duration and status as the attribute. The Absence ID acts as the primary key, here. The Absence request is then connected to the manager through the relation approves/rejects. The manager holds permission to accept or reject the absence requests. The manager as well as the employee can check his/her absence history. The absence duration, starting date, end date and the reason acts as the attributes for the entity. The check-in and check-out details are logged in by the employee, which are then viewed by the manager. The manager can also update the project

details and the training details. The attributes for the entity includes Date (acting as the primary key), time-in and time-out as the other attributes. The managers can also view the Employee's reports, these includes their performance and incident reports. The attributes for the employee's reports include Report Type, Date, ID and File. The employee can also view the upcoming project deadlines. Projects act as the entity here – ID, Time, title and date of the deadline acts as the attributes. Project ID acts as the Primary key. Further, the training details are connected to the employee through the relationship "viewed by". The attributes include Training ID, details, time, date and topic.

DATA FLOW DIAGRAM

CONTEXT LEVEL

FIGURE 17. DFD DIAGRAM FOR BESTFIT APPLICATION

Diagram Explanation

In the Context level DFD diagram, the employee and the manager are the entities whereas the Bestfit application acts as the context. The employee can login to the application, request an absence as well as check-in and check-out. All these processes include entering the details into by the employee. Whereas they can also view their absence history, upcoming training as well as the project deadlines and details. The manager, on the other hand, can login to the application as well as approve or reject the absence request of the employees. Further, they can view various things such as employee's contact details, absence history, time-in and out details as well as their reports (performance and incident). All of these processes can take place within the Bestfit application.

FIGURE 18. DFD DIAGRAM FOR BESTFIT APPLICATION

Diagram Explanation

According to the Data Flow Diagram (DFD), Login of the employee and login of the manager are the starting process for the application. These details are stored in the Login details data store. Requesting an absence, viewing the absence leave status and the absence history, viewing the

upcoming trainings and the project details are few other processes done by the Employee. The manager, on the other hand, is responsible for accepting or rejecting the absence request. These details would then be forwarded to the status and the absence history processes. The employee contact details can also be viewed by the manager. The employee's performance and incident reports are generated on the basis of project details, training details and absence details – which are the data stores. Further, the manager also updates the training details and the project details, which are then viewed by the employee. The employee details are stored by – these include the contact details as well as the employee report details.

BALSAMIQ APPLICATION

Based on the given requirements, a prototype is made using the Balsamiq application. It is made in such a way that it is quite easy to use as well as reliable. The diagrams have been attached below for reference.

LOGIN PAGE

The manager as well as the staff can choose their roles in order to further get access to the page.

MANAGER LOG-IN

The Manager would select his role and enter his/her credentials in order to access the manager page. Email and Password are the required credentials for the page.

STAFF LOGIN

A different login page is made for the staff and the managers. Once login is completed, the welcome page shows up.

WELCOME PAGE (STAFF)

This is the welcome page of the application. There is a menu option and a logout option available on the page.

MENU PAGE (STAFF)

When clicked on the menu option, several available options show up for the staff. This includes Requesting for absence, checking the holiday and the Absence history, viewing the projects and their deadlines, checking upcoming training events and the calendar.

REQUESTING AN ABSENCE

BESTFIT RECRUITMENT SERVICES

Requesting an Absence

From:

To:

Reason for Absence:

Additional Notes (Optional):

SUBMIT REQUEST

BACK **CHECK CALENDAR**

When the staff needs to take an absence from the work, he/she can use the “Requesting an absence” option. This would make the process a lot easier for both the sides. The staff needs to enter the dates for absence, the reason and he/she may or may not enter the additional notes. And after filling in the details, Submit request button can be clicked. “Check calendar” option can also be used when he/she is not sure with the dates and schedule.

AFTER SUBMITTING THE ABSENCE REQUEST

When the staff submits the request, an option confirming shows up. It states that the request is received and an email would be send notifying the decision made by the manager.

CHECKING THE HOLIDAYS

This option allows the user to check his/her next holiday. Any absence requested accepted also shows up in here as well as any festival holidays and others. There's also a home option provided to the users.

VIEWING THE ABSENCE HISTORY

The absence history allows the user to check his/her history of absence, i.e., the amount of holidays he/she has taken along with the reason and dates of absence.

PROJECTS AND DEADLINES

This page allows the users to check the upcoming projects and deadlines. The project title along with the deadline and time for the deadline is provided.

UPCOMING TRAININGS AND DETAILS

Upcoming trainings for the employees are mentioned in along with the date, time and some other important details. This would help the staff keep track of all the trainings that they need to attend.

MENU (MANAGER)

A separate home and menu page is available for the manager. Certain options such as approving or rejecting the staff's absence requests, checking their absences and contact details, time-in and time-out details as well their reports are available. They are also given the option to check the calendar in order to keep track of the dates and holidays.

APPROVING/ DECLINING THE ABSENCE REQUESTS

The image shows a mobile application interface for 'BESTFIT RECRUITMENT SERVICES'. The screen is titled 'Approve / Decline' and has a yellow background. It displays an absence request for 'Sahil Haryani' from '1/02/2022' to '3/02/2022' with the reason 'Travelling'. There is a text area for 'Additional Notes (Optional)'. At the bottom, there are six buttons: 'DECLINE' (red), 'APPROVE' (green), 'PREVIOUS' (red), 'NEXT' (green), 'BACK' (white), and 'CHECK CALENDAR' (white). The status bar at the top shows signal strength, Wi-Fi, and the time '1:42'.

This page allows the managers to view and approve/deny the employee's absence request. It also allows them to go to the previous or the next page/request.

VIEWING STAFF ABSENCES

This page allows the manager to select the name of the staff that he/she would like to check the absence history.

VIEWING STAFF ABSENCES (AFTER SELECTING THE NAME)

When the name is selected, the staff can view their absence history, i.e., this includes the dates, duration and the reason of absence.

STAFF'S CONTACT DETAILS

Staff's Contact details, that is, their email and phone number can be viewed by the managers. This would make it much easier to contact them. Further, the ID and the Designation of the Staff has also been provided.

STAFF'S TIME-IN AND TIME-OUT DETAILS

This page allows the manager to select the name of the staff that he/she would like to check the time-in and time-out details.

STAFF'S TIME-IN AND TIME-OUT DETAILS (AFTER THE NAME SELECTING)

This option allows the manager to keep track of all the employee's time-in and time-out details. They are also provided with the names of the next employee on the list below, which they can click on to move further.

STAFF REPORTS (PERFORMANCE REPORT)

There are two options available under the Staff reports, i.e., the performance reports and the Incident reports. These are on the monthly basis, they allow the managers to track the performance of these staff members.

STAFF REPORTS (INCIDENT REPORT)

The image shows a mobile application interface for 'BESTFIT RECRUITMENT SERVICES'. The screen displays 'Staff Reports' for a user named 'Sahil Haryani'. There are two toggle buttons: 'Performance Report' and 'Incident Report', with 'Incident Report' currently selected. Below this, the title 'Sahil Haryani's Incident Reports' is shown. The main content is an 'Incident Report Form' with the following fields:

- NAME** (Text input)
- Address** (Text input)
- Incident** (Text input)
- Date** (Text input)
- Time** (Text input)
- Location** (Text input)
- Description** (Text input)

At the bottom of the screen, there are four buttons: 'Riya Sameer', 'Rahul Khan', 'BACK', and 'HOME'.

Incident reports are the second option available in the reports section. These allow the manager to view any sort of incident that took place related to the employee, along with the further explanation regarding the incident.

CALENDAR

The calendar page allows the managers as well as the employee to view the calendar, in order to keep track of the days and dates when required.

TRAININGS

The manager can view the available trainings. He/ She also holds the power to edit or delete any training. He/ She also adds any new training. These details are then shown to the staff.

EDIT EXISTING TRAININGS

The existing trainings page allows the manager to view all the existing trainings and their details. This includes the title, date, time and any additional information regarding the training. He/ She can also delete the training or edit it just by clicking on it. Manager can also add in any new training by clicking on the “Add new” option.

ADD TRAINING

The image shows a hand-drawn illustration of a smartphone displaying a mobile application interface for adding training details. The screen has a yellow background and a dark blue header bar that reads "BESTFIT RECRUITMENT SERVICES". Below the header, the title "Add training" is centered. The form includes four input fields: "Training Title" (a simple text box), "Training Date" (a box with slashes and a calendar icon), "Training Time" (a clock face with an "OK" button), and "Additional Details" (a text box). At the bottom of the form are two buttons: a red "CANCEL" button and a green "ADD" button. Below these are two more buttons: a white "BACK" button and a white "HOME" button. The smartphone is shown with a black outline and a home button at the bottom.

As mentioned earlier, the manager is responsible for adding any new trainings and the details. He/ She needs to enter the details such as title, date, time and additional information and then click on the “add” option in order to add the details. They can also cancel if they don’t want to add the details.

ADD CONFIRMATION

Whenever, the manager clicks on the “add” option in the add trainings page. He is redirected to this page. The confirmation page is for ensuring that the manager wants to add the details to the table. When, clicked on “yes”, the details are added and the table is updated. Clicking on cancel would take them to the previous page and allow them to review or edit the details.

DELETE CONFIRMATION

Whenever, the manager clicks on the “delete” option. He/ She is redirected to this page. This confirmation page is for ensuring that the manager really wants to delete the details from the table. When, clicked on “yes”, the details get deleted and the table gets updated. However, clicking on cancel would take them to the previous page and allow them to review the details.

PROJECTS AND DEADLINES

The manager can view the projects and deadlines available. He/ She can edit or delete any project record and can also add any new project details. These details are then shown to the staff.

EDITING PROJECT DEADLINES

The existing project deadlines allows the manager to view all the existing projects along with their deadlines. This includes the title, date and time of the deadline. He/ She can also delete or edit these details just by clicking on it. Manager can also add in any new project details by clicking on the “Add new” option.

ADDING PROJECT DEADLINES

The image shows a hand-drawn illustration of a smartphone screen. At the top, the status bar displays signal strength, Wi-Fi, and the time 0:39. Below the status bar is a purple header with the text "BESTFIT RECRUITMENT SERVICES". The main content area has a yellow background and is titled "Add Project Deadline". Below the title are three input fields: "Project Title" with a text box, "Project Date" with a date picker showing " / /" and a calendar icon, and "Project Time" with a clock face and an "OK" button. At the bottom of the form are two buttons: a red "CANCEL" button and a green "ADD" button. Below these are two more buttons: a white "BACK" button and a white "HOME" button.

As mentioned earlier, the manager is responsible for adding any new trainings and the details. He/ She needs to enter the details such as title, date, time and additional information and then click on the “add” option in order to add the details. They can also cancel if they don’t want to add the details.

ADDING PROJECT CONFIRMATION

Whenever, the manager clicks on the “add” option. He is redirected to this page. The confirmation page is for ensuring that the manager wants to add the following details to the table. When clicked on “yes”, the details are added and the table is updated. Clicking on cancel would take them to the previous page and allow them to review or edit the details.

DELETING PROJECT CONFIRMATION

Whenever, the manager clicks on the “delete” option. He/ She is redirected to this page. This confirmation page is for ensuring that the manager really wants to delete the details from the table. When, clicked on “yes”, the details get deleted and the table gets updated. However, clicking on cancel would take them to the previous page and allow them to review the details.
